Custom Metalworks in Stainless Steel, Copper, Brass, Zinc, Aluminum, and Mild Steel

We specialize in Stainless steel, copper, brass, zinc, aluminum, and mild steel. With over 35 years experience in products such as: canopies, counter tops, sinks, cabinets, drawers, hoods, back splashes, shelving, railings, metal architectural features and custom artwork.

Complete custom stainless steel kitchens - manufactured and installed

Creative Design & Quality Construction

Rob Lysons has worked with some of the most creative designers of commercial and residential metalworks, consistently bringing that creativity to reality in all forms of metal while maintaining the highest degree of quality demanded by today's builders and consumers.

Seamless Quality

The combination of the latest tools and techniques and a commitment to the highest level of craftsmanship means that all ARL products are constructed for lasting beauty and longevity.

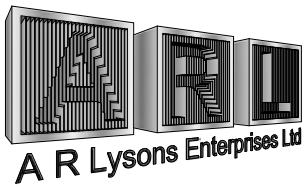

Accent Features

More than just an accent – add a bold statement to your surrounding that is both aesthetically beautiful and also fully functional.

Architectural Design

Looking to put that finishing touch that will truly define the space and capture the style and grace of your vision? We can turn your vision into reality!

What We Do

There is an exciting new opportunity to turn your idea into reality. The best part is that it is at your finger tips.

Our new custom metal fabricating facility has opened and is prepared to turn your unique ideas into metal! Whether it be a residential or commercial application, no job is too big or too small! We specialize in stainless steel, copper, brass, zinc, aluminum, and mild steel.

Our History

35 Years - A new beginning

With over 35 years experience in products such as: Counter tops, sinks, hoods, back splashes, railings, metal architectural features (i.e: reception desks, crown mouldings, base board and trim, signage or artwork). We fabricate custom commercial kitchen equipment as well.

We are also capable of site welding and modifications for commercial kitchens.

Vision & Values

From the very beginning our focus has been on crafting the best possible product to satisfy the customer

- We use the highest quality materials
- Our shop has the latest technologies and equipment
- Our staff are all craftsmen
- We embrace innovation and creativity
- We stand behind all our products
- Our word is our warranty

Rob Lysons is the owner and lead craftsman in the company. He has a passion for creating with metal and continues to

push the boundries between utilitarian metal working and works of art.

Rob Lysons is excited to resume in the industry that is his passion. He has been in the sheet metal industry all his life. Rob started his apprenticeship in the mid 80's through his fathers business Martin Plumbing and Heating. In the fall of 1986 he moved to Edmonton and started his career in the custom metal business. Rob finished his apprenticeship with McKinley and Taylor and continued to work for them until 1999. Rob started his own business called Alberta Custom Metal Fabricators in 1999.

In January of 2016, Rob transitioned out of Alberta Custom Metal Fabricators.

**So, now the new chapter begins...
A R L fabricating!**

Connect With Us

Our shop is in Wainwright, Alberta where overheads are lower and the pace is conducive to personal service and the focus on craftsmanship – with today's communications technologies we can serve a wide swath of Alberta from Edmonton to Lloydminster and Red Deer to Ft McMurray. Call, email or text and it will be like we are just next door!
